

Junora LTD

Rotary Target Material Specifications

Material	>99.99% Silver
Production Process	Continuous Micro Casting (CMC)
Density	>10.4 g/cc
Grain Size	Not Determined Yet
Backing Tube Material	316 Stainless Steel
Bonding Material	None -Target Material Directly Adhered
Maximum Power	50 kW/m at 1 LPM/kW and 10 RPM
Material Thickness	4—20 mm
Surface Finish	Machined or as Deposited with Spiral Pattern
End Detail Finish	Machined
