

Junora LTD

Rotary Target Material Specifications

Material	>99.99% Lithium
Production Process	Flip Casting
Density	0.53 g/cc
Backing Tube Material	304 Stainless Steel
Bonding Material	None -Target Material Directly Adhered to Tube
Maximum Power	5 kW/m at 1 LPM/kW and 10 RPM
Material Thickness	4—20 mm
Surface Finish	Machined
End Detail Finish	Machined
Shipping	Vacuum Sealed in a Metal Container
